

**"THE TRUCK HAS THE TOWING CAPACITY,
HYDRASTAR HAS THE STOPPING CAPACITY"**

- 7K & 8K Axle Weights
- Integral and Slip Over Rotors
- Dacromet Coating
- Optional Stainless Steel Calipers
- 1/2", 9/16", 5/8" Studs
- Complete Braking Systems
- Individual Components Available

Increased Braking Force = Shorter Stopping Distance

Less Time and Money Spent on Maintenance Over the Life of the Trailer

Less Susceptible to Brake Fade, Corrosion, and Contamination

Maintenance as Easy as Checking Brake Fluid Level and Brake Pads

No Brake Adjusting Necessary

The Hydrastar Trailer Brake Actuator Advantage

- Manufactured, assembled, and rigorously tested in the US, backed by an industry leading 2 year warranty from the date of the customer's purchase, and the industry's best customer service. Team Hydrastar will handle all warranty and technical claims/issues.
- Hydrastar is a Service Disabled Veteran Owned Business.
- Hydrastar's Marine actuator is the only EOH on the market specifically design for the marine industry.
- Hydrastar units are vented, allowing for the dissipation of heat, moisture, and pressure from the cavity of the unit. This increases longevity and robustness of the unit.
- Compact design. Smallest footprint on the market allows for better management and integration on the trailer. This also creates a more aesthetically pleasing look to the trailer.
- The Hydrastar's wires are constructed of copper core, with GPT insulation, that are vacuum impregnated to prevent wicking.
- The Hydrastar only requires one 5 amp/hr breakaway battery.
- The Hydrastar is compatible with factory and aftermarket brake controllers.
